Sir:

In accordance with 37 CFR 1.97(b)(3), the materials set forth on the enclosed form PTO/SB/08a are brought to the attention of the Examiner. Copies of the non-U.S. patent documents are enclosed.

An Office Action was issued by the Japanese Patent Office in a corresponding Japanese patent application on August 15, 2008. A copy of that Office Action is enclosed.

JP1-249449 is accompanied by an English language abstract which was obtained from a commercial database.

JP4-9741 does not appear to have an English language abstract or equivalent. It appears to show a roller or a cylinder that is provided with ingress and egress passages for a fluid that is supplied to one end of the cylinder or roller.

Entry of these materials into the file of the subject U.S. patent application, and their consideration by the Examiner, is respectfully requested.

Respectfully submitted,

BECKER, Martin et al.
